CHEVRE FOR BREAKFAST?

Belle Chevre BREAKFAST CHEESE PROMOTION

Belle Chevre's line of breakfast cheeses (good for lots of times of day but especially for breakfast!) were born from a French tradition of stirring in preserves or honey or fruit into a fresh goat cheese and having it for breakfast.

Belle Chevre wants to highlight and celebrate our breakfast cheeses. And help your customers understand that cheese isn't just for lunch or a snack or for dinner but for breakfast too - a HEALTHFUL breakfast!

Goat cheeses are lower in fat and calories, higher in protein, lower in lactose, good for digestion, even good for your skin and hair.

COOKING LIGHT magazine says ["Goat Cheese is The New Cream Cheese and We Couldn't Be Happier"](#) Belle Chevre wants to invite our Whole Foods partners to participate in Belle Chevre's Breakfast Cheese promotion for May and June.

CHEVRE FOR BREAKFAST??

REINVENT BREAKFAST
REINVENT MORNINGS
REINVENT YOURSELF.

Did you know goat's cheese is lower in fat + calories than other cheeses?

And that it's packed with probiotics + vitamins?

We've taken OUR goat cheese, always mild + creamy, and mixed it with some of the most delicious flavors on earth: natural Tupelo honey, rich, bold coffee, sweet fig preserves, and spicy cinnamon sugar.

It's the best thing to happen to toast since sliced bread.

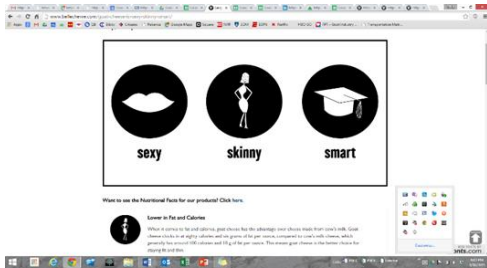

Morning will never be the same.

CHEVRE FOR BREAKFAST

Competition, Environment, & Industry

- Products are unique in marketplace and have strong reputation
- Over 100 national and international awards
- Products are “on trend”
 - Artisan
 - High protein
 - Relatively low fat
 - Robust flavor
 - Substitute for cow’s milk products for lactose-intolerant people
- Goat milk products poised to be the next Greek yogurt
 - More mass acceptance
 - More strategic buyer interest

Belle Chevre Advantages

- Our original spreadable goat cheese (aka fromage blanc) is the freshest of the goat cheeses. Ours is a 1st place award winner from the American Cheese Society. It's perfect on a bagel or some toast, alone or with jelly. It's also a much healthier recipe substitute for cream cheese or ricotta. Cheesecakes and lasagna have never tasted better.
- Belle Chevre has produced a variety of internationally acclaimed chevres since 1989 using time-tested European farmstead techniques. The company is purposefully small, and each chevre is hand made by its passionate cheese makers. The result is an artisan cheese with a mild and distinct taste and texture that reflects the care with which it was made.
- WHY BELLE CHEVRE? *All natural, artisan ingredients *Nearly 100 national awards by authorities in the cheese world *Competitively priced gourmet cheese *Strong name and brand support and marketing *Modern, fun and attractive packaging *Strong customer satisfaction *A wide variety of cheeses, including some shelf-stable varieties *Name recognition that will draw consumers to the cheese case *Real, high quality products *Geared towards gourmets, health-conscious consumers, and mothers with little time on their hands....in other words, everyone!

BEHIND EVERY GREAT CHEESE...
**there's
a story.**

Solution to Cream Cheese Category Growth

Total grocery retail sales of cream cheese are down 0.3 percent, according to Information Resources Inc. scanner data from 2015. Grocery retail sales of plain cream cheese stood down 1.1 percent. Sales of flavored cream cheese represent a smaller segment of the market. However, this represented a strong 4.8 percent growth. This was the strongest growth recorded for flavored cream cheese in the past four years.

Plain cream cheese, however, experienced the largest decline in four years, which offset the growth in the flavored category, for an overall category decline in grocery retail sales of 0.3 percent.

Goat Cheese

The Company estimates the U.S. market for goat cheese at \$340 million, with a growth rate of 12 percent or more. This equates to additional market value of \$41 million per year. While goat cheese currently accounts for about 1.5 percent of cheese sales in this country, about 4.5 percent of new sales in the cheese industry are from goat cheese.

Cheesecakes

Cold desserts are the second fastest growing category in specialty foods, behind eggs, according to Specialty Food Magazine, growing 28.2 percent from 2011-2013. Cold cheesecake sales in the United States totaled \$130 million in 2014, according to Statista.

To Indulge: A Cheesecake to Serve 6, but Not if You're Lucky

To define "delicacy," just look to the cheesecake made by Belle Chevre, a goat cheese company in Elkmont, Ala. Its confection, made from sweetened goat cheese with a whiff of lemon in a graham cracker crust, can end a meal with ethereal lushness. At a little more than a pound and a half, the cake, sold frozen, serves six to eight, and is ideal with fresh fruit, either tropical ones now or berries before you know it: \$29.99 at Murray's Cheese on Bleeker Street, (212) 243-3289, and \$34.99 from murrayscheese.com.
