Comments by David A Reed:

Where other companies take 5 to 6 years to achieve, we have succeeded in a year. Securing complete agreement at all levels and surging to final point at ISD. We are currently in cue at ISD but need to move up in priority timing.
Obstacles and objections were overcome and multiple "ownership" hand-offs were managed even to set up Exec to Exec level meetings professing compliance with ISD exception only. The speed and depth of success so far would not have been achieved without experience and contacts.

Comments by Debra S Friar:

David has been exceptional at understanding how to work successfully within the very complex, chaotic Wal-mart culture, resulting in verbal pilot agreements from both Pharmacy and Sam's Club for BOTH POS and CHR solutions. His ability to penetrate to virtually anyone in the organization resulted in significant WMT cross functional onboarding wins during the year.
