Measurement Strategies

Traffic	*Buzz*	*Brand*	*Leads*	*Sales*
Referring sites	Viral growth of content	Increased awareness	Forms filled requesting info	Revenue increases
Keywords	“you’re everywhere” factor	Sales staff feedback	Live chat session requests	Sales cycles shorten
Unique/Repeat Visitors	Increased size of groups, followers, RSS subscribers, etc.	Invitations to write, speak, interview, etc.	Downloads	Competitive threats weaken
Pages visited	Industry thought leaders write about you	Track company name mentions in media	Cost per lead	Market share grows
Bounce rates	Speaking opportunities increase	Track company name searches in web analytics		Employment applications increase
	Media coverage increases			CRM Integration

Measurement Strategies

$1	$100	$1,000
Manual	Hubspot	Eloqua
Calculate SEO/SEM costs	Search Marketing analytics	Manage multi-channel campaigns
Calculate Social Media costs	CRM tracking to Salesforce.com	Score and profile leads, screen before passing to sales
Vendor fees, click fees, free tools	Measure sales per keyword, referral source, tie to marketing events, etc.	Track campaign results all the way to closure
Apply known conversion rates and stakeholder agreed assumptions	Call tracking: toll free and local phone numbers tied to keywords & landing pages	Real time synchronization of marketing data with CRM system
100% Manual & Subjective	Reasonable level of automated tools with some manual tracking	High level of automated tools
